

Queensland Centre for Public Health

Trans fatty acids and other current nutrition issues

Dr Dorothy Mackerras

- Venue:** Training Room 2, Level 3
Queensland Health, 148-163 Charlotte St
Brisbane
- Date:** Friday, 29 June 2007
- Time:** 10.00am-12.00pm - light lunch provided

This presentation will provide an update on trans fatty acids and other public health nutrition issues such as mandatory fortification of foods and health claims including nutrient profiling.

Dr Dorothy Mackerras is Chief Public Health Nutrition Advisor, Food Standards Australia New Zealand (FSANZ). She received her post-graduate training in public health, epidemiology and statistics in the United States and has taught in several different Master of Public Health degrees.
